

Dear FCC,

My purpose in writing is to ask that you fix your system regarding the issuance of an MMSI when obtained from other than the FCC. Specifically, when an organization such as BoatUS obtains an MMSI certificate from the FCC, the license number so obtained is then only good for use in US waters and not international waters without having to refile with the FCC. Fixing this system will both reduce the cost and inconvenience to boaters and reduce the burden of yet another filing on the FCC. Please take the necessary action to fix this problem.

Thank you,

Peter C. Jurmain
